

the codfather

Our Sustainable Fishing policy

At the Codfather we only use Line caught Cod or Haddock by using line caught we are showing our commitment and support for the health and ecology of the world's oceans through sustainable fishing Grounds thus minimising the environmental impacts, demonstrating effective management and crucially, the traceability of all the fish we serve from The fishing Line to your plate.

All our Cod , haddock is all line caught and is sourced from Peterhead and Grimsby from a few select Trawlers of which We display in the shop every day the name of the trawler that caught that day's haddock and Cod and the area of the ocean in which it was caught.

By choosing The Codfather you are assured of delicious, top quality haddock, whilst supporting sustainable fishing practices, ensuring that fish and chips can be enjoyed for generations to come.
